

SUSTAINABLE FISH & SEAFOOD

What is Sustainable Seafood?

Sustainable seafood is fish or shellfish that is caught or farmed in ways that consider the long-term viability of harvested populations and the ocean's health and ecological integrity. Choosing sustainable seafood is an effective way to support the best practices in the fishing and aquaculture industries to ensure our ocean resources last long into the future.

Determining Sustainable Seafood

Seacore has been working with and collaborating for years with the leading Canadian Sustainable Seafood organizations - SeaChoice, Ocean Wise and MSC. They all use the best available science, strategic communications and partnerships to mobilize sustainable seafood markets throughout Canada.

The entire OceanPrime Sustainable Seafood Program and the products considered sustainable have all been identified and assessed by SeaChoice, Ocean Wise and/or MSC.

Seacore is a co-founder of Sea Pact: United for a Sustainable Future | www.seapact.org

GUIDING PRINCIPLES

OceanPrime
Sustainable Seafood

powered by

SeaChoice.org
for healthy oceans

Seacore Seafood recognizes its role in helping ensure a sustainable future for the seafood we buy and sell, and the overall health of our oceans. As one of the largest seafood distributors in Canada, we aim to be a model of sustainability in the Canadian seafood marketplace and continue to be a proactive leader that is well positioned to supply sustainable seafood products to our customers.

Make a Commitment

Commit to developing and implementing a comprehensive, corporate policy on sustainable seafood.

Collecting Data

Assess and monitor the environmental sustainability of our seafood products.

Buying Environmentally Responsible Seafood

Support environmentally responsible seafood choices through purchasing decisions.

Be Transparent

Make information regarding your seafood products publicly available.

Educate

Educate our customers, suppliers, employees and other key stakeholders about environmentally responsible seafood.

Support Reform

Engage in and support policy and management reforms that leads to positive environmental outcomes in fisheries and aquaculture management.

SUSTAINABLE SEAFOOD GOUPS

In Canada, there are 5 prominent non-governmental organizations (NGOs) that Seacore is a part of that assess and/or promote sustainable seafood for our Canadian market. These organizations use scientific and factual evidence in assessing the seafood and based on the results will determine if they are sustainable seafood. To join, support or donate to any of these great organizations, please contact us or visit their respective websites:

OCEAN WISE

Ocean Wise was launched in January 2005 by the Vancouver Aquarium. Ocean Wise works individually with each partner business to help it make sustainable seafood purchasing decisions. In turn, partners identify these options on their menus or display cases with the Ocean Wise symbol. While partners are not required to only provide Ocean Wise seafood choices upon joining the program, partners are required to clearly label seafood items that are identified as sustainable and Ocean Wise. The aim is to bring partners along a path of continuous improvement with the ultimate goal of becoming 100 per cent Ocean Wise. www.oceanwise.ca

SEA CHOICE

SeaChoice is about solutions for healthy oceans. Launched in 2006, SeaChoice was created to help Canadian businesses and shoppers take an active role in supporting sustainable fisheries and aquaculture at all levels of the seafood supply chain. Based on scientific assessments, SeaChoice has created easy-to-use tools that help businesses make the best seafood choices. Working in collaboration with the Monterey Bay Aquarium's acclaimed Seafood Watch program, SeaChoice undertakes science-based seafood assessments, provides informative resources for consumers, and supports businesses through collaborative partnerships. www.seachoice.org

MARINE STEWARDSHIP COUNCIL (MSC)

The MSC is an international non-profit organization addressing the problem of unsustainable fishing, and safeguarding seafood supplies for the future. Using their fisheries certification and seafood labelling program, the MSC works with business partners to promote sustainable fishing and transform markets. The MSC's certification and ecolabelling program enables everybody to play a part in securing a healthy future for our oceans. MSC only assesses wild caught fish and seafood. www.msc.org

AQUACULTURE STEWARDSHIP COUNCIL (ASC)

Founded in 2010 by WWF and IDH (Dutch Sustainable Trade Initiative) the Aquaculture Stewardship Council (ASC) is an independent not for profit organization with global influence. ASC aims to be the world's leading certification and labelling programme for responsibly farmed seafood. The ASC's primary role is to manage the global standards for responsible aquaculture, which were developed by the WWF Aquaculture Dialogues. ASC works with aquaculture producers, seafood processors, retail and foodservice companies, scientists, conservation groups and consumers in sourcing sustainable seafood. ASC only assesses farm raised or aquaculture fish and seafood. www.asc-aqua.org

SEA PACT — UNITED FOR A SUSTAINABLE FUTURE

Sea Pact is a group of leading North American Seafood Companies dedicated to driving stewardship and continuous improvement of social, economic, and environmental responsibility throughout the global seafood supply chain. Sea Pact will improve the sustainability of global seafood by using the collective power of like-minded North American seafood companies to improve the fishing and fish farming systems we procure from. Sea Pact was created by the six founding members: Albion Fisheries in Vancouver, Fortune Fish & Gourmet in Chicago, Ipswich Shellfish Group in Boston, Santa Monica Seafood in Los Angeles, Seacore Seafood in Toronto and Seattle Fish Co in Denver. Additional members that have joined since inception are Stavix Seafood in Boston, A.C. Coverts in Halifax and J.J. McDonnell in Baltimore. www.seapact.org

WHAT TYPES OF PROJECTS ARE FUNDED?

GEAR OR FARM IMPROVEMENTS	FISHERIES MANAGEMENT	WILD STOCK ENHANCEMENT
SPECIES RESEARCH AND DATA COLLECTION		
RESEARCH TO IMPROVE FARMING PRACTICES	FISHERY HABITAT RESTORATION	
FISHERIES CONSERVATION	TECHNOLOGY	
REGIONAL AQUACULTURE MANAGEMENT		
COMMUNICATION & EDUCATION	FISHERY IMPROVEMENT PROJECTS	
AQUACULTURE IMPROVEMENT PROJECTS		

HOW DOES SEA PACT SELECT PROJECTS?

1 REQUEST FOR PROPOSALS on annual basis

2 SEA PACT ADVISORY COUNCIL REVIEWS ALL APPLICATIONS TOGETHER

with environmental consultants

3 POTENTIAL PROJECTS ARE EVALUATED ON

- environmental need
- fiscal needs
- relevance to the seafood industry
- socioeconomic impacts on fishing or farming communities

“ WE’VE LEARNT A LOT FROM OUR PREVIOUS GRANT PROPOSAL REQUESTS, AND HAVE BEGUN TO RECOGNIZE WHERE OUR CONTRIBUTIONS CAN MAKE THE GREATEST IMPACT ON CREATING **positive change** WITHIN OUR INDUSTRY ”

- Guy Dean, Vice President/CSO of Albion Farms and Fisheries
